

TECHSPEC® Scorpium™ Nd:YAG Beam Expanders 1064nm • 5X #37-057

TECHSPEC® Scorpium™ Nd:YAG Beam Expanders are designed for beam expansion applications such as laser engraving and material processing. These beam expanders feature AR coatings and are designed for the Nd:YAG laser wavelengths 355nm, 532nm, and 1064nm. The Scorpium beam expanders are available in multiple fixed magnifications from 2X to 10X with M22 x 0.75 threading. TECHSPEC® Scorpium™ Nd:YAG Beam Expanders are a cost-effective solution for system integration. Ideal for OEM quantities, these beam expanders can quickly meet prototyping and application timelines.

Design Wavelength:	1064nm
Expansion Power:	5X
Design Wavefront (P-V):	$\lambda/4$
Max Beam to Fill 85% of Output Aperture*:	1.7mm
Transmission @ DWL:	96%
Entrance Aperture:	3.5mm
Exit Aperture:	10mm
Housing Diameter:	29.95mm
Overall Length:	53mm
Weight:	93g
Mounting Thread:	M22 x 0.75
Substrate:	Optical Glass
Divergence Adjustment:	None

*Maximum beam diameter to utilize full clear aperture of the beam expander
Specifications subject to change

TECHSPEC® Scorpium™ Nd:YAG Beam Expanders are designed with diffraction-limited performance for a range of input beam diameters. These beam expanders are designed to increase the input beam diameter to a larger collimated beam. For custom wavelength and magnification combinations, please contact us.
